

Project Demo Planning

Date	15 July 2026
Team ID	SWTID-2026-3848
Project Name	Machine Learning—based Credit Card Approval Prediction System
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.Nö	Section	Description	Duration	Responsible Member
1	Welcome and Project Overview	Team, demo objectives, and overall project context.	2	Akula Charith
2	Data Management & ML Workflow	Data preprocessing, and model development.	4	Arkati Chenchusunil
3	Web Application Design & Tech Stack	Explaining the architectural flow, user interface, and backend integration.	3	B Thulasidhar
4	Live Core Feature Demonstration	Showing user authentication, credit card application submission, and real-time approval results.	5	Bachu Harshitha
5	Flask App Deployment & Scalability	Discussion on deployment process on Render, database reliability, and future scalability.	3	Akula Charith
6	Conclusion & Future Enhancements	Summary of achievements, potential additions (e.g., Explainable AI), and concluding remarks.	3	Arkati Chenchusunil

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Highlighting manual effort reduction.
2	Solution Overview	Explaining the choice of Python, Flask and ML model.
3	Live Feature Demonstration	Full applicant experience from login to approval result.
4	Q&A Session	Addressing questions on data privacy and model reliability.
